OBJECTIVE / In 2013, Therrien Couture Lawyers relocates its offices to accommodate the law firm's growing team. Situated in the brand new Place du Parc, a prestigious business complex in Sherbrooke, their new workspaces had to reflect the firm's character. The client expects a dynamic, modern, bold, functional and professional environment. Groupe Lacasse worked in collaboration with Therrien Couture Lawyers, the appointed firm

of architects Cimaise, and the dealer Mobiliers H. Moquin. The many criteria of the client brought on some difficulty: The furnishing configurations had to be practical and, at the same time, offer a modern and welcoming design. These objectives presented exactly the sort of challenge that energizes and inspires the Groupe Lacasse team!

GRUPE LACASSE SOLUTION / Jean-Philippe Richard, project leader at Mobiliers H. Moquin, worked in close collaboration with Sophie Chapdelaine, project leader at Therrien Couture Lawyers to design furnishings that would meet the firm's specific requirements. Inspired by existing Lacasse collections, Jean-Philippe custom designed several products for this project. The ability of Groupe Lacasse to manufacture

made-to-measure products like the ones shown here is one of the company's distinguishing strengths. Therrien Couture Lawyers was provided with customized solutions beyond their expectations.

Bathed in natural light, Therrien Couture Lawyers' new configurations combine avant-garde design features from the Nex collection with elements from the C.I.T.É. furniture system. The result is a smart balance between personal and collaborative areas. The workstations are divided by translucent screens, which provide privacy without sacrificing light. The storage modules are fitted with C.I.T.É. cushions, which allow users to sit comfortably while discussing assignments with their colleagues.

The impressive conference tables from the QUORUM MULTICONFERENCE collection are a perfect fit for the meeting rooms. Their communication modules combine esthetics and functionality in true style, allowing users to recharge tablets, cells and laptops using USBs or electrical plugs.

At the heart of Therrien Couture Lawyers' new offices is a splendid bookcase that creates a stimulating and inspiring atmosphere. This area is also used after working hours for company social gatherings: employees love it! The adjacent room is particularly appreciated by those who combine work and family commitments. After school, children can use the room to watch movies or play video games while they wait for their parents.

The lounge and waiting areas are furnished with several Arold brand Hip Hop soft seating modules. Their bold and contemporary curves give a dynamic look to the configurations while offering unparalleled comfort to clients and employees.

TESTIMONIALS

“Despite the complexity of several architectural elements and tight deadlines, we received products and advice that met our requests. The result is exactly what we had in mind and even better. The firm associates are all entirely satisfied, especially since the budget and deadlines were all met.”

NORMAND THERRIEN
Associate and CEO,
Therrien Couture Lawyers

The complementary knowledge and expertise of Jean-Philippe Richard and Sophie Chapdelaine, as well as their synergy, pushed the boundaries of creativity.”

“Cimaise’s mandate for furniture selection consisted of suggesting inspiring furniture for the project. The client worked with Groupe Lacasse in order to select various elements from Groupe Lacasse’s collections. We were pleasantly surprised by the quality and contemporary look of Groupe Lacasse products.”

SÉBASTIEN ROY, M. ARCH.
Project Leader, Cimaise

“The main objective of Mobiliers H. Moquin is to satisfy their customers. We accept the challenge to successfully materialize ergonomic and contemporary workspaces with style. It was a real pleasure to work with Sophie Chapdelaine (Project Leader, Therrien Couture Lawyers) on this project. Groupe Lacasse is unequalled by the quality of excellence of its high-quality furniture and their great flexibility in the design and manufacture of made-to-measure products.”

RESULTS / Dynamic, modern, audacious, functional and professional were the keywords for this project. The furnished offices of Therrien Couture Lawyers leave no doubt that this objective was achieved!

The firm's almost 12,000 square feet is now beautifully furnished with modern functional offices, large conference tables and attractive seating.

Credit for the success of this project goes out to a large team. Therrien Couture Lawyers, Cimaïse, Mobiliers H. Moquin and Groupe Lacasse professionals all worked side-by-side to ensure that the Therrien Couture Lawyers offices would become a benchmark modern working environment. The law firm's new workplace is both esthetically impressive and vibrantly functional!
