ELEGANT AND BRIGHT FURNISHING SOLUTIONS

Nowadays, it is no longer enough to have functional workspaces, you must add warmth and coziness! This is exactly what H. Moquin did in their latest project. Their client chose a classic color palette, such as white, gray and a light wood finish, to create a more elegant and bright work environment.

For closed offices, the NEX collection was preferred, adding a contemporary touch with its asymmetrical legs and its original combination of materials. For the boardroom, QUORUM Multiconference allowed efficient meetings, fully equipped with the latest technology. The workspaces are completed by Paradigm Panel System, with multiple storage solutions that optimize work at the office.

A CONTEMPORARY TOUCH

The collaborative spaces were adapted to promote collaboration and exchange. Showcased here are our modular upholstered Hip Hop furniture and Stad poufs, creating the perfect space for taking a coffee break or welcoming customers.
