FOCUS ON PURPOSEFUL SPACES

The right workplace furniture harnesses the potential of any work community by creating human-centric spaces where employees belong and express their true-self while achieving their goals. On a recent project, our partner dealer Mobiliers H. Moquin created the perfect balance between comfortable lounge spaces to recharge and flexible private offices to work efficiently.

For the boardroom, QUORUM Multiconference allows efficient meetings, fully equipped with the latest technology. For closed offices, the NEX collection was preferred, adding a contemporary touch while bringing a lot of flexibility with the executive height adjustable desk and multiple storage solutions. The workspaces are completed by Paradigm Panel System, providing well thought-out individual spaces.
