

# Be Inspired!

Health Service Organization

## FOCUS ON PURPOSEFUL SPACES

The significance of creating safe, comfortable, and welcoming environments in health services cannot be overstated. One aspect that often goes unnoticed is the impact of furniture design on comfort and service. The right furniture can make a world of difference in creating an environment that promotes healing and support.

ACI Group recently partnered with West Business Interiors to design the perfect environment for Friends for All, a non-profit organization dedicated to HIV prevention and support. The revamped spaces have profoundly impacted the organization's ability to fulfill its mission, fostering an environment where support and services are offered in a community-centric setting.

Through strategic furniture design, the organization has successfully transformed its spaces into havens of comfort, privacy, and support for those affected by HIV. By prioritizing the needs and experiences of its clients, the organization has taken a crucial step toward achieving its goals of HIV prevention and support.
